SecureBids℠

SAY GOODBYE TO COMPLICATED AND OVERPRICED PROCUREMENT SOFTWARE

WHAT SETS US APART

SecureBids simplifies procurement with an intuitive software solution that adapts and scales to your specific needs. Our software solution was thoughtfully developed by your peers to solve real procurement challenges without the distractions of unnecessary features. We are focused on providing a cost-effective solution that does not compromise on compliance, support, or ease of use.

Contract Management

Manage critical components of every contract in one place. Seamlessly exchange files and document requests with built-in alerts for expired documents and non-responsive requests or assigned tasks.

Vendor Management

Build and maintain strong supplier relationships with a centralized location of all registered vendors to streamline communication of bidding opportunities and contract management.

Electronic Bidding

Manage RFPs, RFQs, RFIs, Bids, and so much more...

Support and Services

Unlimited users, unlimited support and access to industry experts.

- Unlimited support and unlimited licenses to make sure your team and vendors are taken care of
- Truly saves your staff time and puts you in front of more vendors

Pricing Information

$2,500 one time implementation fee

$7,500 annual fee

Testimonial

"What a great solution!"

The SecureBids team put together a great product. It has helped my agency achieve better results and less headaches. What impressed me was the fact that they can meet the strict compliance requirements that I need to ensure we align to. The staff is great and helpful. The system is very easy to use and simplifies the bid process and saves time. Keep up the great service! Their team is fantastic!
